

Without a soul there is no Eternal Life.

Session nr 6 of 18 Januari 2019 – English translation– Original Dutch.

Received by Wivine in Belize during a group meditation involving people from other countries participating through bilocation.

Comments Wivine:

The sessions n°2 to 6 of 2019 precede the event of the birth of **Luoja** on January 19, 2019, thus the session n°1-2019. As I said, I started with the end of the story and what followed in session 2 to 6 preceeded the event of his birth.

During the group meditation on January 18, 2019, Luoja came with us once more. Everyone had a weight on his shoulders for days and was waiting for his birth. One way or another, a mystery remained about his gender. Logically he had to come like a boy according to the following famous sentence of The Urantia Book:

20:6.2 (229.1) On a mortal-bestowal mission a Paradise Son is always born of woman and grows up as a male child of the realm, as Jesus did on Urantia.

But what is a **bestowal mission** on ordinary planets? Because that's what it's about in that sentence. I then read it again after Luova's birth, because all those who read more in The Urantia Book have this phrase somewhere in their memory. Me too. There is something that stays in the mind like a "*Paradise Son is always born as a boy*".

When a **Paradise Son** comes for a **bestowal mission** he has a goal which is =

- Provide enlightenment and spiritual education to the populations of the planet concerned. Jesus had already done his when he came here during his bestowal mission 2,000 years ago.
- The pouring out of the **Spirit of Truth**. Jesus has already done that after leaving earth during the pentocost event.

- To give the signal to the God Fragments or **Thought Adjusters** that they can come en masse to live in the hearts of the children immediately after their first good deed (*moral decision*). In fact it is the pouring out of the Spirit of Truth that gives this signal to the **God Sparks**. This to is already done.

Moreover, we have always been told that neither Aaron, **the Avonal Son**, nor Luoja, the **Creator Son who does not administer a local universe**, came here for a bestowal mission as described in the Urantia Book.

So, for what kind of mission are they both here? I didn't find anything about it in The Urantia Book.

This book describes only the usual things that happen in the Seven Superuniverses where everything evolves normally. Urantia, our planet, is one of the **37 planets where the Lucifer's rebellion** broke loose. Where everything was put upside down. Nothing happened normally here.

What, then, is the Urantia Book procedure to correct such a situation from the point of view of the **Sovereign of Nebadon- Christ Michael, the Ancients of Days, Master Spirit nr 7 Aya of our Superuniverse nr 7, Orvonton**? There is nothing substantial written in the book about it.

These were observations that crossed my mind during the two weeks preceding the announced birth date of January 19, 2019. Moreover, that kind of doubt hovered over his gender. Doubt that I hid under the carpet. It will be a boy. How could it be otherwise? Paradise Sons are described as male creatures, aren't they? The Book of Urantia speaks about Paradise Sons and not Daughters. Paradise Sons are always born as little boys, aren't they ?

Luoja came to talk to us during the group meditation on January 18, 2019 and told us:

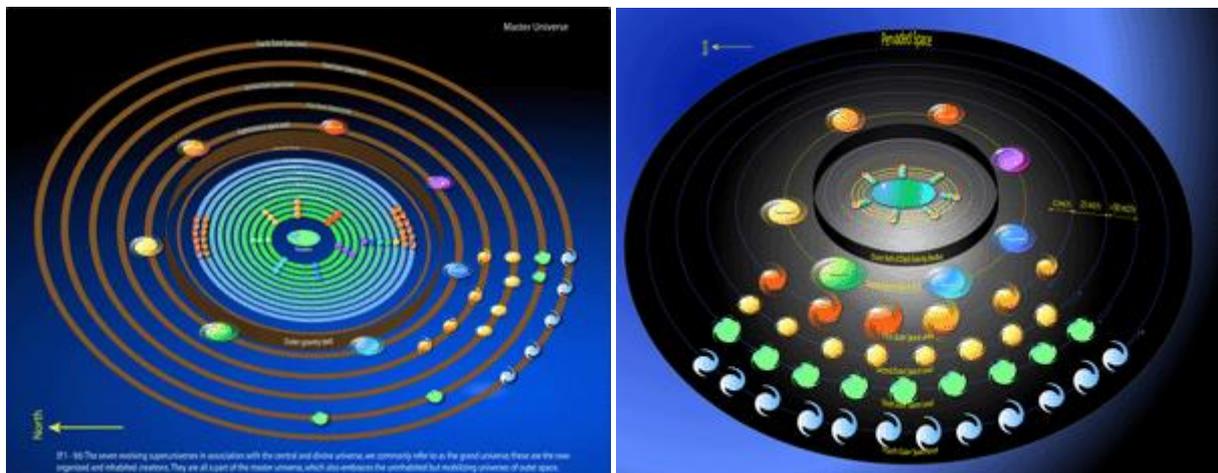

Aaron and I will immediately take up our duties in the other dimensions. We will not be aware of this as babies and toddlers, nor during our growth

as a child and teenager. We will become aware of it in our daily life when our human soul has gone through all the stages of development that it can reach during a human life on a material world.

We will go through these steps very fast, since our circumstances are completely different from Jesus time. He had a lot more difficulty in his days and reached it around his 32 years. We are here for other purposes and will evolve faster as human beings because He prepared The Way for you and therefore for us.

We are here to prepare the future times of **God the Supreme**, when this **Oversoul of Creation** and Universe Goddess will receive all powers over the 7 superuniverses and the 4 outer levels gravitating around the 7 superuniverses.

To receive all powers means that She will have reached maturity in her Divinity and will manage all the universes Herself. Now this management and administration is made for Her by the **Creator Sons**, the **Ancients of Days**, among many others.

We are here to put an end to all that remains of darkness, fallen angels, Luciferian influences and satanic rituals.

Luciferian influences have ramifications in all organized religions, large and small religious sectes, and the so-called spiritual movements of recent decades. All push men to become dependent on external sources to find their truths. They do it through books and scriptures that they declare holy, through irrefutable dogmas and through human spiritual teachers such as priests, preachers, gurus, yogis and self-proclaimed spiritual teachers of all kind ; by organizing groups that study their sacred books in which those who know them a little better become the spiritual leaders of the group. And do not be fooled, the American Urantia Foundation does exactly the same thing.

Their purpose is to prevent men from seeking the real Higher Spiritual Truths in himself, where they are, and nowhere else. To prevent men from working with his or hers own spiritual guidance and climb these difficult steps to reach the level where she or he can be directly taught by their indwelling God Fragment with the purpose to reach Union or **Fusion** with God, with their indwelling « little God ».

The teachings of Jesus called « THE WAY » leading to" ETERNAL LIFE" pointed in that direction, but unfortunately these teachings disappeared by accident.

Does any one of you knows what Jesus really meant when he said: **I am the Way, the Truth and the Life?**

In Luciferian influences one must also include your school, college and academic teachings that aim to make you use only your "*linear human intellect or mind*" in order to distance yourself from your "*intuitive mind-intellect*" which is a spiritual endowment.

In the Luciferian influences are also understood the very subtle technological inventions which man is only too happy to indulge. They will serve to destroy biological life as it was introduced on earth by Christ Michael-Jesus, according to the norms of Paradise and the Superuniverses. This biological life was developed to allow man to

develop a **soul** capable of reaching eternal life and eventually Divine Perfection in Paradise, thanks to the ***spiritual endowments that are attached to it.***

If humanity is not destroyed by your current weapons of mass destruction that are much more sophisticated than your ancient nuclear bombs, by viruses developed in laboratories, by the intoxication of all food, soil, air and water, another much greater danger is waiting for you behind the scenes.

It is the disconnection of man from his spiritual endowments at birth by technologies called artificial intelligence, precisely in order to prevent him from developing a soul. This will prevent the **animal man** from becoming a « HUMAN » in the spiritual meaning of the word: a **Daughter or Son of God.**

We are here to address all these issues in a **spiritual** way. Know that **Spirit** is always **stronger** than matter. Always.

Keep in mind that man has "free will" and therefore, man must be able to make choices. We will ensure that people can grow up in a safe environment, without Luciferian influences, so that you can make a real objective and informed choice. This does not mean that all people will suddenly and miraculously become God knowing. But at least they will be free from Luciferian influences that currently prevent them from making their "choices » freely.

Eternal life for man begins here and now in this life through the development of a soul ; without a soul, there is no eternal life.

Tomorrow is my birthday and so what if I come as a girl?

END.

Wivine: When he said he could come as a girl, I closed my ears. It meant problems. I didn't want to hear it.

When it was announced that he was born as a girl in session No. 1-2019, I had some difficulties with it. I was the one who had to announce it. It's not that I had a problem with the fact that - a Paradise Son, came here in a girl's body. Absolutely not, but because I knew that I was going to have problems with some male friends who walk this path with me ; which happened and thankfully not with everyone.

Fortunately I was surprised that in the group there were enough people of both sexes capable of mentally transcending this materialistic image of the "macho man" as the main male role and "feminist activists" in the female role.

The true spiritual meaning of this will be clarified in our meditations, alone or in groups; as our soul progresses and we can contain its meaning. Higher spiritual insights for which there is unfortunately no vocabulary to describe them.

For Luova, don't we say: "As above, so below!"
