Comments Wivine :

This world map shows the greatest activities of the last 8 years in which we were allowed to participate with the Melchizedeks to destroy the Luciferian grid and replace it with a divine spiritual network. What all this meant and what we had to imagine was a question mark.

This world map has been compiled spontaneously by a member of the group and, I must say it is impressive.

The Celestials did certainly the hard work. We wanted to participate and were allowed to do so. In order to do this work, we received spiritual energy faculties that we had to develop in order to help more and better in this work.

It is this desire and the will to rebuild with these energetic powers that characterizes us all. And while we were doing it and still doing it, our soul grows. We received nothing for free and cannot skip steps. Our bank accounts do not fill up thanks to this work. We have to work in the material world to make money to eat and pay for our travels like everyone else. None of us receives donations or are subsidized and we don't need it.

We can have financial difficulties, sometimes health problems, young people have heartaches, we have family problems and are sometimes stolen by those we trusted too much.

What we get is protection against darkness when we go on a mission and also in our daily lives. We have all our stories about it. We are indeed strongly protected by the armies of Angels commanded directly by [Gabriel of Salvington](#), by our [Midwayers](#) and our [two personal Guardian Angels \(Guardians of Destiny\)](#).

All of us who have been active in this field and are still active in it belong to the [Reserve corps of destiny](#) and the [Cosmic reserve corps of universe-conscious citizens](#). Citizens who know they belong to a universe, a friendly universe with many friends.

Our Thought Adjuster or God Fragment has been granted the status of [self-acting Adjuster](#). A status He has reached with most of us through our commitment and soul advancement, and can also be reached by those who are new in this.

We are only a handful of people. Do not think we are the only ones in the [Reserve corps of destiny](#). There are actually many thousands of people in the world who have been included in this corps and also in the cosmic corps. There are many ways and sectors to serve humanity and assist in its spiritual development: such as solving the many government problems, climate change, global health, world peace and economic prosperity for all, cyber security , arms race, drug-abuse, domestic violence, street-gangs, child abuse – you name it. There is so much to do everywhere with the help of your inner guidance. Ask your "little God", He will find a way to show you where you are most needed.

None of us feel lonely, even when we are alone. Except when we fall into the trap of self-compassion; which can happen from time to time.

We know the Celestials will never let us down, even when we are hiding. They wait patiently for us to come out underneath our bed where we were hiding. Yes, we all have a strong "I-am" with a strong will; unfortunately, it's not always in the right place. They know it well. We are only children for them on the spiritual level. Even if we see it differently.

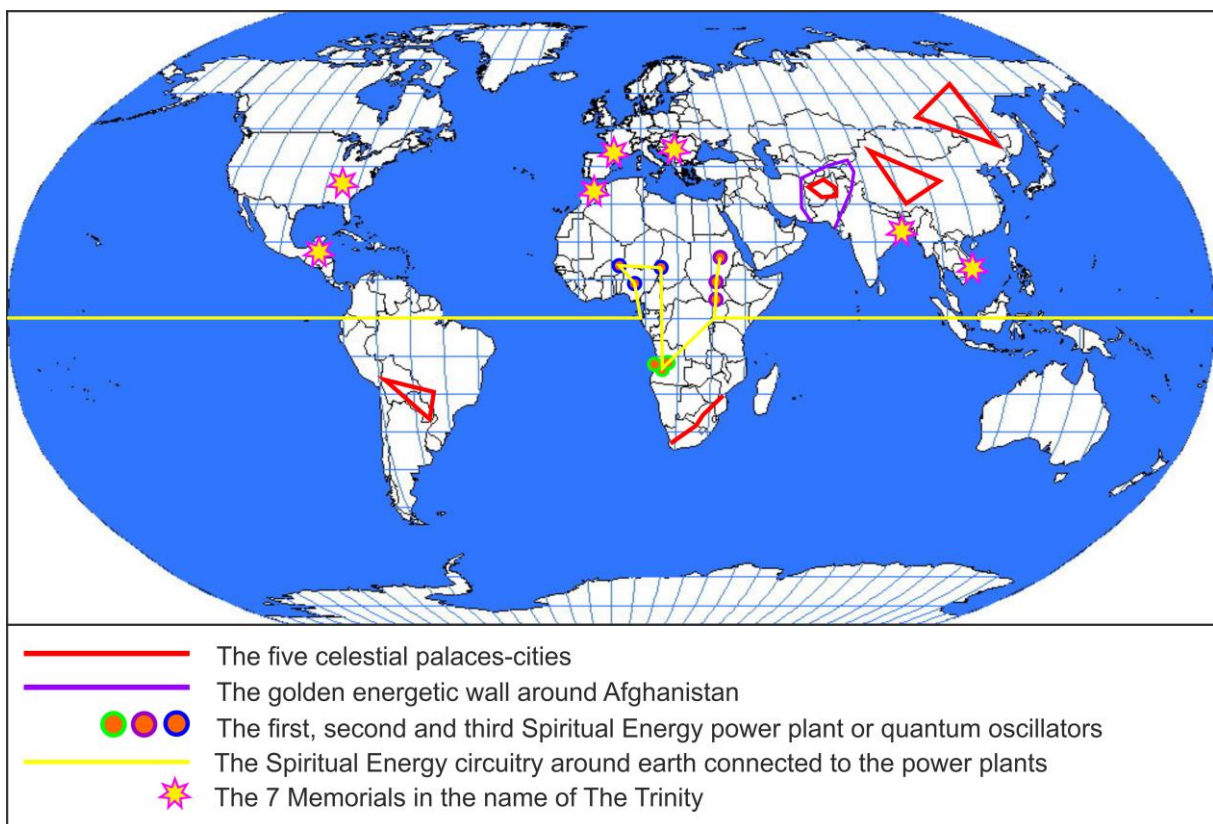

All is not finished. Those who are afraid of falling without work, rest assured. Spiritual evolution is infinite. Always keep this in mind. In addition, our humanity "as a whole" has still a long way to go before we can enter the [first stage of Light and Life](#) or Paradise State. Individually

it's different, more and more will reach it. It only depends on your heart, your inner nature, your love for God and your fellowmen.

Not long ago one of the group told me the following : *you cannot understand the situation of now in the world if you don't understand the Lucifer rebellion of 200,000 years ago and what it was all about.*

He is right. It was also the **Lucifer Rebellion** where I was led to in 2008 in the Urantia Book by surfing the internet. A book I never heard about.
