

## **Adam & Eve and a celestial court.**

Session nr 19 of 15 December 2019- English translation – Original Dutch.

Preface Wivine:

The presentation is long to explain what and who the United Nations are. It is very important to understand how such a global organization came into being, how it developed and what its ramifications are around the globe. Everyone has heard of it, few know how many activities it manages around the world. I didn't know it either. It's like a big octopus with many tentacles. After reading it, you will understand better why this bilocation was carried out and what it has to do with the return of Adam and Eve.

### **I. Bilocation to United Nations institutions**

**On Saturday, November, 9<sup>th</sup> 2019**

**Organized by Joab.**

The **United Nations** (abbreviation: **UN**) is an international organization founded in 1945 by 51 countries.

The UN is considered the successor of the League of Nations. It is an intergovernmental organization that cooperates in the field of IT

- international law,
- global security
- preservation of human rights,
- development of the world economy
- research into social and cultural developments.

The organization has 193 member states since July 14, 2011. Almost every internationally recognized, independent country is a member of the organization.

From the headquarters in New York and the sub-headquarters in Geneva, Vienna and Nairobi, the member states and the specialized organizations of the United Nations decide on essential world affairs and global events during regular meetings. Since the late 90s, the organization has also focused more on internal developments and how the United Nations can grow with the demand for a new method of global cooperation.

There are six governing bodies that direct the work of the organization:

- A: the General Meeting,
- B: the Economic and Social Council,
- C: the International Court of Justice,
- D: the Secretariat, (currently inactive)
- E: Trust Board and,
- F: the Security Council is the most compelling and best-known body of the United Nations.

In addition, there are various specialized organizations that are part of the internal system of the United Nations, including

- G: UNESCO,
- H: World Bank
- I: World Health Organization (WHO).

The United Nations also has specialized programs such as

- J: UNICEF
- K: United Nations Development Program (UNDP).

## **II .Purpose of all these organizations**

### **A : United Nations General Assembly**

*Headquarter of the United Nations*

*Meeting room of the United Nations*

The **General Assembly of the United Nations** consists of all member states of the United Nations. The meeting meets in an annual session. This annual session normally starts on the third Tuesday of September and lasts until mid-December. Additional meetings can be requested by the United Nations Security Council or by a majority of UN members. The General Assembly is the only UN body where all members meet. During the meeting, initiatives can be launched on issues such as peace, economic progress and human rights.

All members of the United Nations are represented in the General Assembly. A maximum of five people per Member State may be delegated, but each Member State has only one vote.

The chairman is appointed per session, according to a rotation role per geopolitical group (Africa, Western Europe plus Oceania, the United States and Canada, Eastern Europe, Asia and Latin America).

In addition to UN member states, the Palestinian Authority and the Holy See have observation status in the General Assembly.

## **B : United Nations Economic and Social Council**

*Logo + Meeting room United Nations Economic and Social Council*

The Economic and Social Council of the United Nations (abbreviated **ECOSOC**, for Economic and Social Council)

Like the Security Council, it is a principal body of the United Nations. The aim of ECOSOC is to promote economic, social and humanitarian cooperation. The ECOSOC is not permanently in office but meets several times a year.

Although ECOSOC could have evolved into the body that defines the general policy of the UN in the field of work assigned to the Council, that has not happened. The function of ECOSOC has become more a supervisory and coordinating than a policy-making. Policy-making takes place within various other UN bodies, some of which are approved by the ECOSOC in accordance with Article 68 of the Dutch Code of Civil Procedure. set. These bodies report to the ECOSOC. Some of these ECOSOC bodies are the Commission for Sustainable Development and the United Nations Human Rights Council.

ECOSOC is also the connection channel with the so-called specialized UN organizations. These are the functional organizations associated with the United Nations. ECOSOC enters into cooperation agreements between these organizations and the UN.

## **C : International Court of Justice**

The Peace Palace in The Hague

The **International Court of Justice** ( *French: International Court of Justice; English: International Court of Justice, **ICJ***) is the most important judicial body within the United Nations. The court deals with legal disputes between states.

It consists of 15 judges chosen by the General Assembly and the Security Council. The International Court of Justice is located in The Hague in the Peace Palace.

In addition to the International Court of Justice, a few international courts are located in The Hague: the

- International Criminal Court
- International Criminal Tribunal for the former Yugoslavia
- Iran\_United States Claims Tribunal
- The Permanent Court of Arbitration

## **D : The United Nations Secretariat**

*United Nations Headquarter in New York*

*City*

The **United Nations Secretariat** is one of the primary governing bodies of the international cooperation organization of the United Nations. The Secretariat is chaired by the Secretary-General of the United Nations.

The Secretariat shall provide the investigations, information and facilities that other United Nations bodies require for discussions and meetings.

A second task of the Secretariat is to perform tasks assigned by the UN Security Council, the General Assembly of the United Nations or other organizational bodies. According to the Charter of the United Nations, staff of the Secretariat must be selected on the basis of *"the highest standard of efficiency, competence and integrity, while respecting a wide geographical basis"*

## **E : United Nations Trusteeship Council**

The **Trust Board** is one of the governing bodies of the United Nations. The function of the Council is to supervise the administration of the trust territories, which are formally placed under the international trust system, but which are de facto quasi-colonial governed by one of the member states.

The Council is the only Member State to have the five permanent members of the Security Council: the People's Republic of China, the United States, Russia, the United Kingdom and France.

The Trust Council was a continuation of the mission of the League of Nations, which had established the system under the name of mandate areas for non-returnable ex-colonies of losers of the First World War who also 'did not' become independent, but de facto divided among the large winners. All eleven trust territories that existed at the foundation of the United Nations, or the states that emerged from it, have since recovered their sovereignty from the Council. The US-controlled South Sea island

region of Palau was the last trust area of the Council and became a member of the United Nations in early November 1994.

The Council has since then ceased to have any trust areas and may not receive any new ones, it was unanimously decided on 25 May 1994 that members would only meet if the President of the Trust Council or a majority of Member States so wished. They also meet when the General Assembly or the Security Council (*which corresponds to a majority of the Council members*) so requires.

## **F : United Nations Security Council**

The **Security Council** is an important body of the United Nations. His primary responsibility is to maintain international security and peace, in the context of the goals and principles of the United Nations

The Security Council consists of fifteen members of the United Nations, including five permanent members: China, France, Russia, the United States and the United Kingdom.

The other ten countries are each elected for a two-year term by the General Assembly of the United Nations; five new countries are chosen every year. Of these ten countries, three are from Africa, two from Asia, two from Latin America, one from Eastern Europe and two from a residual group (Western Europe, Canada, Oceania), at least one from Western

Europe. There is always one Arab country among the five African-Asian countries, alternately from Africa and Asia.

The Presidency of the Security Council changes on the first day of every new month, in alphabetical order based on the English name of the members.

If the Security Council agrees, one or more non-member countries may also participate in a meeting of the Security Council. This happens in particular if a country has a certain interest in the topic of debate. The countries concerned then have no voting rights.

In addition, there are various specialized organizations that are part of the internal system of the United Nations, including:

## G : UNESCO

The **United Nations Educational, Scientific and Cultural Organization (UNESCO)** is a specialized United Nations organization whose mission is to contribute to peace building, poverty alleviation, sustainable development and intercultural dialogue through education, science, culture and communication. UNESCO was established on November 16, 1945 and its headquarters are in Paris.

A reasonably well-known activity of UNESCO is the world heritage program. Since 1972, UNESCO has been promoting the protection of World Heritage by drawing up a World Heritage List by the World Heritage Committee. This list contains real estate with an exceptional and universal nature and / or cultural value. In 1992, UNESCO launched the Memory of

the World program, intended to protect world memory. This program gave rise in 1995 to the creation of the World Heritage List for documents. Attention is also paid to intangible heritage and underwater cultural heritage. There are currently 1031 monuments on the UNESCO list of material heritage, of which 48 are threatened.

## H : The World Bank

*Building World Bank*

The **World Bank** is the world's largest institute for development cooperation. It provides loans to developing countries and middle-income countries with the main objective of combating poverty. The international bank is technically a specialized organization of the United Nations.

The World Bank consists of two parts:

- *The International Bank for Recovery and Development,*
- *and the International Development Association. These two together with three other components (see below) form the World Bank Group.*

The loans are used for a variety of things, from structural reforms to a country's health and education sector, to environmental and infrastructure projects such as dams, roads and national parks. In addition, it sets strict requirements for its clients, including anti-corruption measures and extensive privatization of government services

## I: The World Health Organization (WHO)

The **World Health Organization (WHO)** is a specialized United Nations organization based in Geneva with the aim of mapping global aspects of health care, coordinating health care activities and improving the health of the world population.

The World Health Organization is also concerned with the classification of diseases (ICD-10) and medicines (ATC coding).

The highest organ in the WHO is the General Assembly (World Health Assembly). All UN member states are part of it. The Assembly discusses the agenda prepared by the Board of Directors, elects the Director General, and votes the budget. The Assembly meets annually in Geneva, Switzerland.

## J : UNICEF The United Nations Children's Fund.

The **United Nations Children's Fund, UNICEF** (United Nations Children's Fund; until 1953: United Nations International Children's Emergency Fund)

is an organization within the United Nations dedicated to the welfare of children, including through the Convention on the Rights of the Child.

UNICEF is the children's rights organization of the United Nations. As part of the UN, it ensures that the international Convention on the Rights of the Child is adhered to worldwide. UNICEF defends the rights of all children and has a mission: to ensure that every country follows it and respects the rights of children.

The United Nations International Children's Emergency Fund (UNICEF) was temporarily established by the United Nations General Assembly in New York on December 11, 1946 to provide food packages and health care to children in affected countries after World War II. From 1953, UNICEF has been a permanent part of the UN structure.

Together with partner organizations, UNICEF helps children worldwide in situations of poverty, disease, violence and discrimination. According to the organization, millions of children go to school thanks to her and her partner organizations and 'countless' children are vaccinated against deadly diseases such as measles and receive good food. UNICEF is working on reducing the AIDS epidemic and helping children who have fallen victim to it.

In disasters and wars, the organization is often on the scene quickly and tries to ensure that children and their families can survive. UNICEF also aims to protect single children against violence, abuse and exploitation.

## **K : United Nations Development Programme**

Logo UNDP

The **United Nations Development Program** (United Nations Development Program, UNDP) is part of the United Nations and the largest development aid organization in the world.

The UNDP is mainly based in New York and provides developing countries - in particular the least developed countries - with advice, training and materials to combat poverty and stimulate development. UNDP does not carry out projects itself, but organizes and finances these, whereby the implementation is outsourced to other UN organizations.

To achieve this, the UN has set the Millennium Development Goals. These agreements were signed by 189 UN members. The UNDP is a member of the Global Environmental Facility. Every year the UNDP publishes the Human Development Index (HDI), a report with information about the standard of living of some 180 countries.

**I. BILOCATION : 5 Assembly points**

**Assembly point 1:**

**USA – New York :**The Headquarters of the United Nations

Headquarters of the United Nations

**Assembly point 2:**

**The Netherlands – The Hague :** International Court of Justice.

The Peace Palace in the Hague

Meeting in the front of the Peace Palace in The Hague

**Assembly point 3 : Switzerland – Geneva :** World Health Organization.

Meeting in front of the **Palais des Nations**

*Palais des Nations Genève*

**Assembly point 4 : France – Paris : UNESCO**

Meeting at the globe in front of the UNESCO HOUSE.

Unesco House Paris.

**Assembly point 5 : USA – Washington DC : World Bank**

Meeting in front of the World Bank building.

Building World Bank

## **Report – experiences bilocation United Nations.**

New York – headquarters United Nations.

Washington – World Banque.

The Hague – International Court of Justice

Paris – UNESCO House

Genève – World Health Organization

(New York - UNICEF – not programmed)

**Joab** : 47min- organizer of this bilocation.

I experienced it as an honor to be able to organize this bilocation. This with your instructions and your help. In the face of great injustice on Urantia, I have always turned during my preparation to The Most High, who reign in kingdoms and organizations. During my meditations on this subject, I felt that this was the intention of our celestials. They were here today to help Urantia advancing to a world of light and life. During my bilocation, I clearly saw that the 5 places were connected by lines. I have not had a flu for many years, but during the bilocation, my head became very hot and I had chills all over my body. Now that I'm writing this, it's over. I had an active chakra 7 and a very active chakra 6. I sometimes felt tingling's in the back of the head. Apart from that nothing visible except a feeling of relief and pleasure to have been able to participate.

**S.** : 45min

Yesterday I couldn't stay in a quiet place to do a bilocation because I was driving, sorting some family issues. But I did the prayer and asked my Thought adjuster and my Spiritual guides to accompany my morontia soul to participate on the bilocation.

I felt a heavy pressure on my head, especially on my C5. Then I felt myself in the United Nations building. All of it lasted at least 45 minutes, until the pressure was gone. I don't know if I went to all places. This is all I can remember and experienced.

**L.** : 50mn

I was not in a very good mood this morning (problems in the company). I asked if this posed a problem for bilocation and the answer was "no, no, absolutely not". After five minutes of meditation, I went into deep meditation. I felt a lot of energy, even after bilocation.

**E.:** 50 mn

I went to the headquarters of the United Nations in New York. There I saw myself with other people forming a big circle in front of this big building of the UN.

It seemed to me that I was participating in the creation of a Light Anchor. A moment later I thought it was over, it was 18 minutes, but I felt it was necessary to continue and closed my eyes again.

I left to find myself in Paris, again with other people in front of the UNESCO House. Then I went immediately into deep meditation to get back without any other memories or special feelings.

**J.:** 38 Mn

At the beginning no activity at the level of the chakras, then later activity on chakra 6.

Otherwise I saw myself visiting all the dating sites: NY-UN; The Hague - Court of Justice; Geneva - WHO; Paris UNESCO and Washington - World Bank.

In all the places, I imagined that we created a Light Anchor. In the end, I had the impression that all these sites were united for the unity of peoples. I imagined that all UN agencies around the world were connected by this light.

**F.:** 1h08.

I looked at the place before the bilocation. I started to prepare myself a little earlier and then to meditate. My chakras 6 and 7 became active,

then celestial helpers brought my soul to the first place, and after that I have no more memories.

During my bilocation, my heart and my chakra 4 were also very active, with many very powerful palpitations, as if my heart was almost jumping out of my chest. I felt that a lot of good work had been done. I lost my sense of time until everything started to calm down and I came out of the bilocation.

**W. :**

I had already thought about the purpose and importance of this bilocation. Here too, the major problem is UNITY within the United Nations and serves the same interests in the various organs of the United Nations. To what extent are nations really united, to what extent are they willing to serve a single purpose, and what is the magnitude of energy opposition?

Bilocation:

New York United Nations headquarters building.

When I arrived in New York, people were gathering there already. I was asked to enter the room where the United Nations meets. The walls and ceiling seemed to move in the room. They were full of entities.

They were irradiated with light and washed from the walls like paint.

These entities aim to break the [unity](#) within the United Nations. [Unity](#) and [one mind](#) are what is missing. It is these opposing forces that have been destroyed by light. The whole room was sprayed with light. Each object has been processed.

The Hague - International Court of Justice

We left with a group to The Hague.

There were many souls whose lives had ended as a result of violence, war and ill-treatment, and whose perpetrators had been tried in The Hague. These souls were collected and taken away. Here too, dark entities have been bombarded with light.

## Paris - UNESCO

The next thing I remember is that we arrived in Paris.

The fight against poverty is thwarted by egregores representing greed, who seek and generate this energy from sensitive people.

To fight against poverty means to share resources and this happens far too little. Here too, a lot of work has been done with radiating energy.

## Washington – World Banque

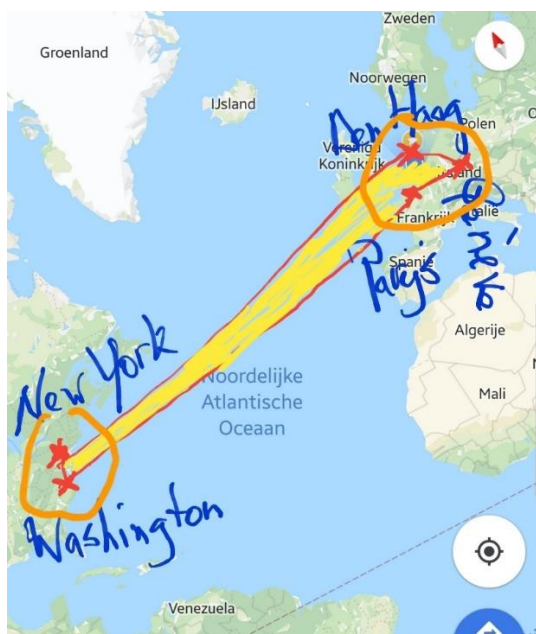

Then to the World Bank.

This organization is closely linked to the fight against poverty, or at least should be. Entities that focus on separation and greed have been irradiated.

In order to strengthen **unity** and coordination between the different organs, two huge Light anchors have been created in Europe and America. One Light anchor covers the regions of The Hague, Geneva and Paris and another Light anchor covers the regions of New York and Washington. These Light anchors are connected by power lines to increase unity, coordination and mutual cooperation.

Wherever I was, great and beautiful Angels were present.

The connection energy field looks like this:

**A.** : 45 min.

Under special circumstances I tried to avoid noise as much as I could. But I did go in deep meditation. I know it because I don't remember most of it. I just remember being outside the UN headquarters in NY, and saying some words, some kind of guided prayer for every human mind and soul that works in the UN system ; but I don't remember much more, no specifics. I remember more the intention and feeling than the words.

**Rob.** : 1H45

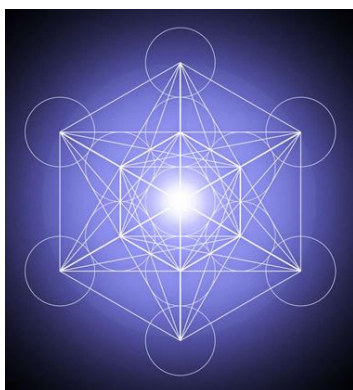

When I arrived in New York, a flash like a very bright light hit my eyes and then I saw the building at the center of the UN symbol. The symbol was golden, like a living plant.

After that, I went to Washington. There, I did not see much but I stayed a little while before leaving America.

Arrived in Europe, I saw from above the three places: The Hague, Geneva and Paris which formed a triangle. I saw a ball of light on every place. The places were connected by a line of light to form a triangle.

A question came to my mind: does this triangle has a relationship with the Metatron cube? I did not get an answer.

*(Wiv: we must first learn more, understanding will come later, that's why they cannot answer you now! Keep an open mind for new things you do not know and about which you cannot find anything on the Internet. This applies to all of us).*

*cube of Metatron.*

I looked closely at each place and saw a large black skeleton carried by several hands to The Hague (United Nations Court of Justice).

I asked if it was a big corpse of a "thought-form"? No answer.

In Paris, I saw like a large compact disk shining and its light scattered throughout the interior of the building.

In Geneva, I saw a sort of round saw turning clockwise.

**C.:** 1h18 .

Some pressure in the head and I was off , absolutely no memory of nothing, just opened my eyes and a feeling of peace came over me.

**M. :** 58 mn – Nothing.

**N. :** 50 mn – Nothing.

**F.:** 51mn nothing special to mention.

**N. :** 55 mn.

I saw something black and transferred Energy to it until it cleared up.

**Rod. :** 48 mn.

Arriving in New York, I saw this big city where so many cars circulate. After a while, a dark spot of human form appeared running from right to left and from left to right in one second. After a while, I felt a kind of caress on the left ankle and then on the right. I do not know what it was.

**J. :** 49 mn.

I saw people standing in a certain order in front of the New York building. This was also the case at the Court of Justice in The Hague.

A giant centaur (half man, half horse) suddenly appeared, blowing a lot of smoke, hard to describe. Everything happened so fast. Then everyone broke up into small groups.

**JP** : 1h10

I felt waves of energy often descend to chakras 7 and 6, and sometimes to other chakras. At times chakras 7 and 6 began to spin in an atmosphere of curious expectation.

**Wivine** : 48min.

I flew to the United Nations building in New York. Curious to know what was going to happen. A global organization with many tentacles around the globe is something else than a region or a country.

After my arrival, I walked in front of the entrance. I wanted to enter out of curiosity, but I did not get further than the front door. It must have been day light there, but it didn't look like that. It was dark as when the sun goes down and almost black like night.

I looked up and rose above the building. Suddenly, I saw something bright above me, a Light Person. It surprised me at first. In addition, a little below Him, there were many Angels with fine lances in their hands in a solemn pose. It looked more like an official army.

I realized that it was Gabriel with his armies of angels. Behind him, a little on the side, was Jesus in his majestic blue and white light that threw lightnings.

I bowed my head thinking: *OH, something is happening. This seems to be an important ceremony with such a heavenly power deployment.*

Gabriel heard me and said: *"Yes, it's an important day and we're here, as you would say, with all the cavalry!"*

Oops! Oops! I quickly made a strategic diplomatic retreat and placed myself among the others who were already in a circle above the building. An Angel gave the signal for the creation of a Light anchor. A traditional Light anchor was created with its luminous flame that burst in the middle and flew skyward.

Then Aaron, Luova and Jesus stood above the circle of this Light anchor to form an equilateral triangle. Everything happened so fast. A spherical light surrounded each of them, and from there flashes of light descended to their feet to connect them, which clearly formed the triangle. Then flashes of light came out of their hearts towards the center of the triangle/pyramid and a column of light appeared that descended into the earth and rose to the summit of the [Supreme Being](#). This broad column of light enveloped the luminous flame of the first Light anchor, to encapsulate it.

The next moment, I looked inside the building and saw dark mini monkeys (negative thoughts) running from all sides and up and down the walls. It took a long time, but they finally disappeared thanks to the intensity of the luminous column and the energy that all sent.

I looked away and saw that we were forming a big circle, much larger than the building itself. I was wondering if we could go to Washington (World Bank), but no. It was not finished. Everything was starting to darken and the building disappeared from my view. My chakra 6 began to spin strongly, then my body from the heart to chakra 7. The building reappeared and I thought it was over.

"[Wait](#)" - I'm told. Ok, I started to wait and looked at the building from a certain height. It took a long time before something strange happened, something I never experienced.

Below the building, on the ground, a shape was outlined with a head, body, arms and legs. Just a shadow shape and the building was in the center of this form. This form did not move, but was more clearly drawn.

[Wait](#)," I was told again. Ok I wait!

This drawing of a human form with a head, arms and legs became darker and darker while the outside world became slightly lighter, greyish. As with full moon. I clung in case this thing that emerged would suddenly jump from the ground. Still, nothing happens. Patience Wait.

Suddenly, the ground around the building began to explode on all sides, as in a horror movie. Like roots of a tree coming up. And those cracks in the ground went far, very far away.

I sent energy with others until we were told to stop. This form in the ground did not rise and something wanted to come out of the cracks, but failed.

After waiting a long time, something else happened. It was as if there was an invisible dome over a large area with the United Nations building in the middle. This dome became more and more visible. Angels sent something to the dome, which began to show small cracks. The cracks widened and everything suddenly felt on the ground like pieces of broken glass.

Everything became black again and I started to emit energy. Until another "stop" came with the order to wait again. After waiting a long time in the dark, it came.

Something brilliant descended above the United Nations building. It took shape when approaching. When it was right above the building, I saw a man and a woman. They emitted a lot of light and seemed translucent. They were sitting on a tall, majestic high-backed chair and did not move.

Who were they ????

Then Gabriel's voice was heard:

Adam and Eve are back on earth to assume their functions as **planetary rulers** for the human outside world. They will again form the link between peoples and the Planetary Prince. But only in physical form when the time is appropriate. They are here now in morontia shape. They will be able, if necessary, to appear to humans who are sufficiently developed spiritually by densifying their morontia body.

They will work first with the **seraphim of the planetary government** and the humans who perform tasks for them in the physical world.

They take on this mission until your planet has gone through all the stages of Light and Life.

The world organization of the United Nations will be purged and will serve as a tool for their global governance.

Their return is inaugurated today.

Then the angels began to sing and play instruments. There was music and joy. It was the feast.

I was so happy that our Adam and Eve were back. Their absence was like an amputation. As if we were not complete. They are part of our ancestors and our history. It was so unexpected and imposing.

I wanted to continue in the other places but Monssoen Melchizedek came to see me (*he must say his name or I do not recognize him*). He stopped me and said: *stay here, my girl, participate in the party. There are already other people working in these places. Do not worry.*

I stayed a moment, but partying is not really my thing. After a while, another Melchizedek took my hand and said: *Come on, leave Washington on the side, we're going first to the United Nations Court of Justice in The Hague.*

I let myself be guided and others joined us.

When we arrived in front of this magnificent building, we remained motionless and had to watch. After the "*a little patience*", a shining building came down in which there was a large table with Heavenly Sages and Majestic Beings sitting on it. It looked like a court where the judge is sitting in the middle with assistants on his left and right.

Then someone said: *here, above this building, a **celestial court** is inaugurated today, under the supervision of the **Ancients of Days**. It is here, that all "fallen angels and morontia personalities" of all rebellious planets (36 + Urantia) will be judged for their actions.*

The emotions remained stuck in my throat. It was a little too much in such a short time.

From there, we went to Geneva, to the United Nations World Health Organization.

There too, there was a lot of darkness that gradually disappeared after making the usual energy transfers and the creation of a Light Anchor.

At one point, a large black creature appeared. It gave the impression of being unconscious. It was unclear whether it was a giant thought-form (egregore) or a stunned fallen angel. He was taken out of the building and was systematically wrapped in light cords to hold him quiet. Then that thing or being was taken elsewhere. I did not see where. Due to the fact that it was taken away, I would look more for a fallen angel than an egregore because those are destroyed on the spot.

Then it was the turn of the UNESCO House in Paris: education, science, culture and world heritage.

Here too it was so dark. I do not remember much of it, except that I was suddenly attracted to the Washington (World Bank) at some point. From there, back to New York to the United Nations buildings and then back to the UNESCO building in Paris.

Wide black avenues left the UNESCO House for New York. I knew we were at some point back in the UN building area. All these black lines seemed to converge to something in those surroundings to leave from there to somewhere else. Meanwhile I continued to send Energy again and again.

I was wondering what UNESCO in Paris had to do with the United Nations building in New York? The answer was : **UNICEF**.

I was confused! Unicef - Unesco what's the difference? Answer: *UNESCO are the buildings(world heritage) and UNICEF the children.*

All of a sudden, I was in underpasses, they were artificially lit and beautifully carved and decorated in stone. These corridors were empty

and I did not meet anyone. Yet they serve, they are used. There was a place where I was stopped to transmit energy, it was a beautiful stone alcove. There was nothing and nobody, but I did it.

I was puzzled. Where was the main organization of this underground labyrinth of corridors. Above ground, everything was still dark - these dark roads followed the artificially lit underground corridors, which connected the buildings of all UN organizations, intercontinental and around the world. It was like a clandestine, decentralized organization that had invisible channels to carry out its work and whose leadership was invisible.

I wanted to know what was going on and the answer came: [UNICEF - children - networks](#).

My courage dissipated to make way for amazement. It couldn't be true. What was it ? Pedophilia? Organ trafficking? Prostitution? All together I came out crying of the bilocation - nothing was left of the party with Adam and Eve.

I immediately went to my computer. I opened "Google maps" on New York, and there it was.

There are several United Nations buildings not far from each other in New York and the UNICEF building is very close to them, almost in their middle.

Then I did some research on UNICEF to find out who their "boss" was. Nothing to find - it's a decentralized organization with head offices on different continents that have smaller offices locally. Heads of the various headquarters meet regularly and report to the UN. And then you lose track.

All their websites are full of pictures of children to receive donations. UNICEF lives from donations.

It is a wonderful organization with generous goals, where many people work who have really good intentions. Who are devoted to the children of the world. It certainly has to be said. They do a lot of beautiful things. They stand up for children's rights and that is close to my heart. A child is not really protected. Nowhere.

Unfortunately, it might be used as a cover to hide an underground network that should not see day light, with international ramifications that prevent tracking those who pull the strings.

It will be discovered, it will take time, but the truth will come out one day. I have no doubt about it. It will be done by others, not by us. It is not our job.

End.

**GROUP MEZZA VERDE.**
