

Message to the Spiritual Guides of the Andes Cordillera .

Session nr 7 of 28 June 2020 –English translation.

place : Mezzaverde in Belize.

Message received by Antocal Nesdi from Colombia.

Visitor : Monssoen **Melchizedek**.

*{Note Wivine: the first part is a transcript of a video message from **Antocal Nesdi - March 2020** that I received from a person of our group. It is no coincidence that this message came to me right now. It included one of the topics on which I have been working for weeks, guided research, coupled with meditations where each time a little more explanation and insight were given. On top of that, I'm still stuck in Belize and I can't get out of the country. Well, there is always a way, but not before my work here is done. Monssoen Melchizedek speaks afterwards.}*

1. Antocal Nesdi

This message was recorded in Los Angeles at the end of March 2020 , at the beginning of the lockdown imposed in California due to the projected risks associated with the propagation of the Coronavirus.

This recording is intended for the spiritual leaders of the Cordillera of the Andes.

However the teachings offered here can be put into practice by any individual awoken or on the path of awakening.

While all gatherings – religious included – have been forbidden almost worldwide, today each and every one of us, all of us, wherever we may be, have the opportunity and the responsibility to convert ourselves into a channel of Peace, Love and Light from the intimacy of our hearts.

Message :

A good day to you, all my brothers and sisters A very good moment to all the beings on Earth. This is a message I'd been waiting for a long time, but even more since the moment we arrived here in Los Angeles. As all of you know we started this journey from Colombia to arrive here in this territory of the United States. The doors have been opened to us in a very smooth way, during all the process that we undertook. And yet here we are in this moment of catharsis, in this moment of crisis in which I asked myself "What is the reason of our presence here?".

Well, yesterday, the message I'd been waiting for so long has arrived , the message they transmit to all the leaders of the Andes, in the Cordillera of the Andes, is that we must remain very quiet.

To begin we have been very blessed, for many years. If not for our entire lives. We have been living in a territory where you breathe fresh air, where you breath the Energy of the mountains, of the Earth, the rivers, the waterfalls and all of us who are living in the countryside, in the eco-villages, in the mountains, we've been charging ourselves infinitely with a great energy to be able to help during these times during which humanity has entered this crisis of manipulation but which is also a learning experience for each one of us whatever level we find ourselves in the process of life. We are not all on the same level.

This is the information the Higher Guides share with us. We are all in different vibrations and that is why this process that we are living each one of us will live it in a different way. Some with pain, some with fear, others with worries, others with lots, lots, lots of abundance.

That is why we, who have been working as Light facilitators, always called ourselves as lighthouses. As these sparkles of light, present here and ready to help humanity. Well the moment has arrived, my dear brothers and sisters. The message they send us is that each one of us has been sent to a different place on earth as lighthouses. Each one of us has been placed to the East, to the West, to the North and to the South.

And each one of us has been placed there to accomplish his or her task.

The Higher Guides ask us not to go back home, not to go back to our houses, because through our will we've made ourselves available to the Higher Energies to be able to help out all our brothers and sisters.

I asked what rituals we could do because today is the day we do the rituals and it is with lots of emotions that I express myself , but with emotions of joy regarding what the "older brothers" tell us.

They say that we did lots of rituals , that we have lit many fires, that we have raised many prayers , that is why the fires are already activated all over the world. That is why our prayers have been received and our goal reached.

They say that now is the moment to maintain ourselves as energy projectors, whatever location we find ourselves in this experience. For me personally and grand-father , we have been placed here in Los Angeles, California. A place where we are invited to activate the real light angels.

Because currently, the fallen angels and the angels of darkness are doing their task. But it is nothing else than to confront ourselves. If we are lightworkers, then we are going to resolve it through Light.

This Light is nothing else than harmony, tranquility, peace but an **interior tranquility, harmony and peace that we carry in our heart.**

The message is that we must remain in a state of complete calmness, in complete harmony, and we must observe ourselves, at all time, at night, during the day, in every moment with whom we find ourselves, with whom we share (our life).

The message is that when we feel on the emotional level or on the mental plane, that we receive certain energy of fear, of worry, of doubts, then we must recognize that this energy is not ours, its simply the energy of the others which is coming to us so that we can transform ourselves into catalyts of that energy, we transmute it, and we release it again converted in Light.

They say that we don't have to do any ritual because it is not the exterior rituals which serve us, but it is the ritual that I do inside myself.

They say that when my heart is calm , when my emotions are quieted, then my "spirit" can manifest itself to elevate the higher vibrations among those who are not yet conscious and that is why they shouted and fought in the supermarkets, because they have been taught to think through their stomach, they have been taught to feel from the perspective of shortage, and deprivation.

But we are on another vibration.

Each one of us has been placed in the location appropriate for him or her, filled with abundance, with protection, filled with health, but above all filled with consciousness, and that consciousness that we've been collecting for so long, is our contribution to humanity.

Thus I invite you, wherever you find yourself, be it surrounded by people or in solitude, truly transform yourself into a lighthouse. Transform yourself in a catalyts for the energies, that our brothers send to us to help

catalyze these energies of those who don't know how to transmute them, who are not conscious, who are still under the veil.

We have the responsibility to help take that veil off, from the highest part of the Spirit, this great mystery, this great Spirit, this great Being we invoke so much, invites us to remain in peace, in a state of complete calm, and in a state of complete observation.

They tell us that this situation shall pass too and when it shall have passed, our consciousness will have accomplished the quantic jump which we've have been looking forward to for so long, for which we've worked so much.

They tell us also that after this catharsis, life will be wonderful; for each one of us, for those who will stay in this plane and for those who are going to the other plane.

But the moment has arrived.

The decision is ours. We unite with the highest vibrations of Love and energy, and in compassion we embrace all our brothers and sisters.

A big hug to all, to each and one of you and a very special salutation to each one of you.

We are not alone, we are not alone. All our higher guides, all the masters, all the grand-fathers, all the ancestors are already active. Their medicine has already been activated, their memories already have been activated, so that the last thing we have to do is to embrace our brothers and sisters and if not with that physical hug, with that energetic hug, of love and light.

With you all from Los Angeles, California. Good experience, good life.

2. Monssoen Melchizedek:

We wanted to illustrate with the above message that we have the same goal and send the same messages all over the world ; that it is not only with this group that we work, but with many around the world. Many of those who preserved this "ancestral knowledge" through the ages.

I will interpret and add to this message, especially for this group.

What she says is that it is no longer necessary to do bilocation's all over the world to create "Light anchors" or "Light Palaces " with us where we deemed necessary; neither to go physically on site for such a purpose. Everything has been done, is in place and is in operation. This job is done!

You may be asked to do another (new) type of work with new acquired techniques for which we will send you to some places in case it cannot be done through bilocation or while you sleep.

The way you send Energy and the type of Energy will also change, whether you work with [Universe Energy](#), the Energy of the [Trinity](#) or the [Pure Energy of your indwelling God fragment](#).

If you want to send Energy, you must first **fill your heart with the highest love** you can feel for your fellowmen - friend or foe. Then let the type of energy you use flow through with your techniques. You will gradually or suddenly undergo changes in your techniques when you send Energy provided that you love God and invite Him to work through you.

Do not imagine anything and do not put yourself on hold for anything. Let it come and send energy while **staying centered in your heart**. There is no standard procedure, so the signs will be different for everyone.

Open yourself to the Love of God and let Him work through you. Keep your brain empty of thoughts. You will become a "channel" for His Divine Love Energies - do not block them by wanting to be in charge and direct operations. Do not stick to your techniques when you feel that they no longer work as before. Stop transmitting for a few days and then try

again. You will see. Always ask questions about this during your meditations and if in doubt, ask for confirmation. Your "**Orientation Angels**" will help you in this regard.

The "*dark morontia grid*", all the fallen angels and this heavy darkness have disappeared. Not the humans who worked with them with a Luciferian ideology, nor the selfish, power-hungry materialistic people. They still create darkness with their own rituals, thoughts and actions.

The "*dark energy grid*" has been replaced by a "*light grid with morontia and spiritual energies*" that we have been working on for many years. The last stones of it were hastily placed two months ago.

This "people of darkness", to give them a name, will continue for a while to disrupt the world's economy, maintain or organize local wars, produce diseases through air and food and destroy mother nature. They will keep people in fear, anger, hatred and intolerance. Especially through all the media types. Don't get caught up in it, even if what is happening seems to be for a good cause.

They will keep you in dualism - if it is not white, then it is black and dualism is used to put one against the other. Don't get carried away with this. Do not judge and do not condemn. It is neither your task nor your authority. Worldly truth works always with two sides like on a silver coin.

We are now entering a new era. An era where God will work directly through you in **His own way and according to His purposes**.

There is a structural lack of Love and Compassion in your world, as well as true spiritual knowledge and spiritual insight.

God the Father wants to remedy it and has since long drawn up a Plan to provide humanity with His Divine Love through your cooperation.

Much of this plan has already been implemented.

Now begins the phase where all of you will climb the last steps to serve as a perfect channel for this "**Divine, uplifting and harmonizing Love**" which will pass through you.

Not by campaigning on the street or on social media like a warrior draws his sword to attack the enemy. Do no longer try to create Light anchors wherever you think they are needed. Those days are over. This work is finished.

Now begins another time, in which God wants to work through you to bring humanity to a higher consciousness. A level of consciousness that transcends dualism. Where love and inner harmony prevail. If you can go far in this area, He will be able to do it constantly, even without you knowing it.

You will learn to feel **Unity** in all of Creation. Not just read about it and then tell others. No! Feel and live it yourself.

You, whose souls have grown spiritually, will experience this **Unity** between the Creator and His Creation, between the Creator and all human beings, animals, plants and the mineral world. Because in everything there is Life, Love and a soul with its own mind and consciousness. One day animals, plants and the mineral world will also spiritualize through your contribution and of those who will come after you.

Everything and everyone interacts all the time.

God speaks to each one of you and interacts with you through other people, through animals, through plants, through majestic mountains, rivers, water, sea and marine life. There is nothing in Creation that is not imbued with Him. Not even in its most condensed form: stones and minerals. This is why people feel so good when they walk in the sun or in the wind in the countryside or on a beach. There they find health and this inner peace they need.

It is the work you do on yourself that will make you feel this Unity and will help you keep your inner peace and happiness in all circumstances. This requires soul growth and closer contact with the "**little God**" who lives in you.

Gone are the days of looking outside for the enemy to go to war.

Now you will have to work on your own demons to be able to keep your inner peace in all circumstances.

Do this deliberately with your "little God." Hold His hand firmly so that you can spiritualize your soul and reach a Higher Mind through the unification of the "**male and female mind powers**" from the Cosmos in yourself.

God will accomplish everything through men and women.

God lives in every human being and all He asks is that you open yourself to Him so that He can spread His LOVE through you. His transforming and harmonizing Love that encompasses all and everything.

Therefore, you must maintain yourself in inner peace, in inner happiness, in inner harmony.

Don't get overwhelmed by grief, despair, arrogance, anger, hatred, indignation, self-compassion, jealousy and ego. It reduces your vibrations and then God cannot work through you.

Don't say, "*I'm going to do this or that!*" "*I am going to take this measure because this and because that*" that's not what this is all about.

Then you are no longer motivated by Love for your fellowmen.

Only your "**motivation**" is important for God. Not your actions or your words. **The motivation behind every act, behind every word.** Is it motivated by your "I am" or is it motivated by "selfless love and compassion" ?

Before you do anything, ask yourself this question and discuss it with Him first.

Anyone motivated by their heart, by love and compassion, can become an open channel for God and his harmonious powers of Love.

We have accomplished our duties, now it is up to you to cooperate with your inner "little God".

Do not try to understand these words with your human mind. Enter into inner silence and ask for insight and advice so that you know where to work on yourself, to spiritualize yourself so that you can **fuse** one day with your **indwelling God Fragment** or "little God".

Fuse in a way that your body does not disappear, but transmutes, regenerates through your spiritualized soul so that you can serve a little bit longer on this planet.

*{Note Wivine: this was called **pre-fusion** years ago because the Urantia Book doesn't have a name for this step and doesn't talk about it. See session nr 13 from 2012}*

It is up to you to lay the groundwork for all this. And above all, first achieve inner peace and harmony in your heart and hold it in all situations to become Gods channel.

You are capable, for sure you are.

Goodbye my friends. This was Monssoen Melchizedek.

End.
