

Inauguration of the first Millennium of Cosmic Enlightenment.

Session nr 2 of 21 April 2021 –English translation - original Dutch.

Place : Mezzaverde in Placencia via bilocation from Belgium.

Received by Wivine

Visiteur : **ALICEA** – **Paradise Son of the Order of Daynals** – **Trinity Teacher Son.**

Comments Wivine :

I was asked 4 to 5 months ago to organize a regular meditation with Laurent on a Saturday, which we did. Two weeks later we felt like someone else needed to join from our original Placencia group that started 11 years ago. It became Brian-Maya. Then we waited for Christine (Carole) but she didn't gave signs of life. We waited and waited, until someone else came in her place.

We all go to the Placencia temple via bilocation because it is not possible physically given the great distances. I'm in Belgium and Brian is somewhere in the jungle 300 km away. Only Laurent is still in Placencia. The others who joined us later live in other countries.

At the beginning, when it was only Laurent and I, Jesus came with Aaron, Luova and Uni, the three incarnated Paradise children, to form a multidimensional **6-pointed** star in the circle formed by the temple. When we were with 3 people, Jesus did not participate. Only the 3 Paradise children.

Later a 4th person joined us and then Jesus came back with us to form a multidimensional **8 pointed** star.

Then more arrived and now we are with 8 people and the 4 Paradise Sons (Jesus, Aaron, Luova and Uni) to form a multidimensional **12 pointed** star.

At least that was the impression I got or what I understood of it. When I asked what we were doing, I got the answer that they would explain it step by step later. Nevertheless, I was given a hint: ***study "the octahedron" and from there we will explain it to you in more detail. It's not really "the octahedron" but take it as a starting point.***

I pointed it out to the others and we all got into it. Thanks to that we had a base and they could explain or show us a little more about what we were doing. Some

have seen moving images of these platonic shapes around them and that helped us.

Until we felt and understood that we were participating in the creation of new circuits through these complex multidimensional platonic forms with the 4 Paradise Sons. We also understood that we weren't going to stay with 8 - that more would join us as the project we were involved in grew. That it will also depend on the progress of each soul which gives us the capacities to participate in it.

Many felt intuitively that a new era was dawning. But what?

It was then that the following thing happened during the meditation on Saturday, April 17, 2021.

When I arrived at the temple by bilocation, the light coming out of it shone so bright again and even brighter as I entered. There were people, a lot of people, but I couldn't make out who was "who". What did this mean? There was an atmosphere of "expectation".

Suddenly, a very bright shape appeared in the center which greeted everyone and began to introduce itself.

ALICEA: I am a **Trinity Teacher Son**, I belong to the **Order of the Daynals**. I am a Paradise Son created by the Trinity, able to express the attributes of the three Personalities that make up the **Paradise Trinity** depending on where we perform our tasks in the universes: the Father - the Son or - the Holy Spirit.

When we work on a material planet, we primarily represent the service and teaching characteristics of the **Holy Spirit** and work according to the plans of the local Universe Sovereign. Here we are in the local universe of **Nebadon** with its **Almighty Sovereign Christ Michael (Jesus)** – Paradise Creator Son of the Order of Michael's.

My name is (was spelled) **A.L.I. c e a**.

My name is like a long song, a sung poem, far too long and unfathomable for you. So it will be **Alicéa**.

There are millions of Trinity Teacher Sons that were created in Paradise and I am number 30,033. (Wiv: I am not sure it was that or 30,053 - the number quickly surfaced and disappeared as quickly).

I do not incarnate on a planet, nor can I make myself materially visible to humans. I cannot make direct contact with humans, let alone talk to them. It has been possible here by "reflectivity," which is a communication system that has been implemented recently on Urantia, just to get this message out.

(Wiv: So the shape I saw was only a brief sketch to allow me to distinguish him from the others. It wasn't real. After these words I went into deep meditation).

Note Wivine : the following was received on April 21, 2021..

Alicéa : On April 17, 2021, according to your Western time, the **first Millennium of Cosmic Illumination** was officially inaugurated on your planet.

My contact with the **future superhuman government** of your planet will be through the **Super Angels of Nebadon** - the **Brilliant Evening Stars**.

These Super Angels will also serve as a link between me and those whose **two morontia glands** are sufficiently developed to hear and eventually see them. In the meantime, your **Midwayers** and Guardian Angels or **Guardians of Destiny** will assist these **Brilliant Evening Stars** in these contacts with the help of the **physical controllers** who operate the energies.

Such direct contact will occur for now sporadically with those in the **Reserve Corps of Destiny** and only during deep meditation or sleep.

As this **Millennium of Cosmic Illumination** progresses, many circuits will be put in operation which will promote the alteration of human DNA

- to strengthen their immune system

and

- will help to develop superhuman capacities in those who have faith in God and develop altruistic feelings towards the human, animal, plant and mineral kingdom.

This will allow more and more people to gradually reach the stage of "Illuminated man" and "God-man". It will happen **simultaneously** across all continents on your planet. No continent will be favored or one left behind.

I am assisted by 3 other **Daynal** brothers of my Order and by 82 **Trinity Teacher Sons** who were **not** created by the Paradise Trinity as the Order of Daynals to which I belong.

They are of various origins and all have in common that they have been **embraced by the Trinity**:

- Some were created by **Creatures of Havona** and Paradise and then trinitized.
- Some come from the ranks of **ascending mortals** who did not fuse with their **Thought Adjuster**, but with a **Fragment of the Mother Spirit** or the **Creator Son** of their local universe. They had within them the capacity to reach Paradise and thus to be embraced by the Trinity. They **do not** join the Paradise **Finality Corps of mortals** who fused with their God Fragment (Thought Adjuster).
- Some come from the ranks of the **ascending Seraphim**.

They all have their abilities and backgrounds depending of their origins and the tasks they perform in the Superuniverses.

We, the Order of the **Daynals**, are Sons of Paradise, just like the **Creator Sons** and the **Avonal Sons**. I will therefore work in close collaboration with

- Aaron, incarnated Avonal Son (2015)
- Luova, incarnated Creator Son who does not administer a local universe. (2019)

- Uni, incarnated Creative Daughter of Paradise and conjoint of Luova.
(2020).

To :

1) reveal and expand your knowledge of the Personality and Sovereignty of **God the Supreme** - the Oversoul of the universes.

2) Carry out the **plans of Christ Michael (Jesus)**, Ruler of Nebadon - your local universe - for the spiritual development of soul and body of your populations and all other life on earth.

I will return to Urantia a few more times after this first millennium so that your planet may start one day with the **first stage of being anchored in Light and Life** (*there are 7 stages*) and eventually become anchored definitively in the **status of Light and Life** with the appearance of the **Morontia Temple**. Only than I will look for another job.

My first task will be

- to spread the knowledge of the existence of "the Spirit" or "God Fragment" in each human being and what this implies for the ascension of the soul towards Paradise.

- The realization of a **materialized superhuman world government** and

- one single belief through which all humans will be aware that they are brothers and sisters under the guidance of the same Spiritual Father.

Experimental religion.

I will begin by emphasizing experimental religion. A religion based on life experiences, on inner and outer conversations and experiences.

For **"True Faith" - is experience**. It is a constant dialogue between the Divine Father and his child. A dialogue in which the Father teaches his child in an understandable way, sharing His knowledge sparingly, weighing each word, without saying a word too much. Just enough to arouse the child's interest.

This is how the child will live and experience the closeness of God in his heart, where “**True Faith**” is lived.

For now it doesn't matter whether you are aware of the presence of a God Fragment in you or not : your faith, love, and trust in God will nonetheless continue to grow, no matter how you imagine God. This image will regularly be updated **on soul level**, whether it is now on earth or later on the **morontia** or **spiritual** worlds.

The most important thing is to start with faith and dialogue with God.

This way, your faith will first become a force and a lever for your soul. Then, over the course of your life with its joys, difficulties and misfortunes, it will become wisdom and knowledge.

The dialogue that will take place between you two, between the Father and the child - will bring you strength, wisdom, goodness and beauty of soul.

God does not impose anything, does not profess anything, does not require anything.

He shares his knowledge by entering into a dialogue with you. By helping you to think, by constantly pushing you to seek further for your own answers and to put them into practice.

So never let someone else dogmatically tell you what to believe and what not. Never dogmatize a book, because it will never be complete or completely true.

True faith, true religion is experienced from within through a constant dialogue between God and you. By meditating regularly with the intention of gaining spiritual knowledge and contact.

As long as you cannot hear Him, cannot see His teachers, or have no memories of them in your waking state, He will bring people and books to your path to help you receive your confirmations and His guidelines. Once you have understood and put into practice what you needed from it, God

will put other living forms of education on your path so that your knowledge and spiritual understanding will evolve and continue to **evolve** in His direction.

So that your faith and spiritual wisdom does not freeze, crystallize, or become compulsive towards yourself and your surroundings.

True faith is living. True wisdom and true knowledge are always living because they are **transformed** through your dialogues with the Divine Father.

This is how the child that you are will one day grow into a wonderful adult soul, eager for new knowledge and challenges of selfless service. To eventually become a spiritual creature who will one day blossom into a **Divine Creature**.

Learn to think for yourself, find that strength within you by strengthening your intimate relationship with God anywhere, anytime, in every moment of your life, in all your decisions, in all your actions. That's all He expects from you.

He lives in you and waits for you to show and explain you the wonders of His Creation.

Each of you grows based on your listening skills and your ability to learn to love. Everyone has his own speed and gets time. Each of you will have his or her momentum!

It is during this **Millennium of Cosmic Illumination** that many people will achieve the status of:

The Illuminated Man.

(continuation session 12 of 2020)

The "**Illuminated Man**" is not yet the "**God Man**". This is the first step you need to take to become a 'God Man'.

How?

When you succeed in joining-blending

- the intuitive feminine mind or intellect of the heart

with

- the masculine supermind or intellect.

When this happens there will be an explosion of golden light high above your head in the shape of a circle. This circular shape will then expand left and right in such a way that the circular shape in the center acquires the shape of an elongated egg with a long luminous flux on each side. This phenomenon can give a person watching such an event the impression that a bird shape or wings appear in that burst of light.

(These images are for illustration purposes only. There are many others who symbolize this phenomenon known since ancient times.)

When this phenomenon has occurred, you will have opened the door to the penetration of divine intellectual intuition ; to divine inspirations through which you suddenly "see" new spiritual concepts that you immediately "understand". It will give you access to a kind of Divine Knowledge, Wisdom and Truth which will enter you with immediate accessible conclusions and answers.

This knowledge does not pass through the human brain. The human brain is not involved. A person who has reached this stage will use it more and more and will gradually find out that they will use their brain less and less for many spiritual and other matters.

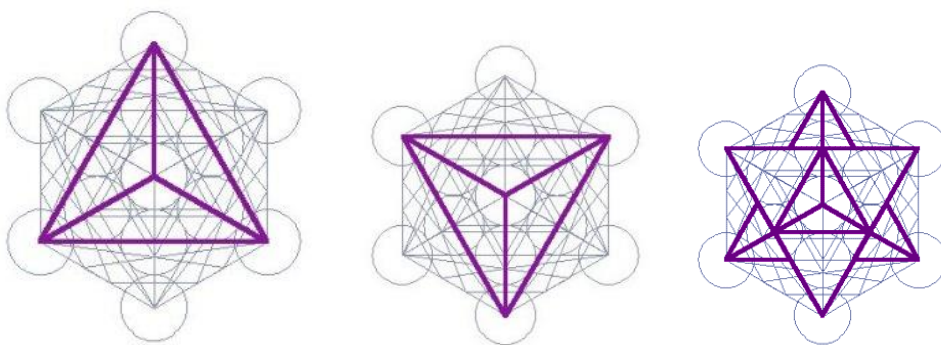

Although it is sometimes described as "*the opening of chakra 8*", it has in fact nothing to do with the 7 chakra system of the human body, nor with an extension of it.

We will explain to you more clearly how to open this portal but in a different way to broaden the understanding in the long term. We will do this through the "platonic forms" on a multidimensional level.

They are the basic geometry of the living building blocks used to create the Superuniverses, Morontia Worlds, Time and Space Worlds or material planets. These living, multidimensional building blocks are also used to create intelligent energy and communication circuits between the planets and the morontia worlds, and from there to the spiritual worlds.

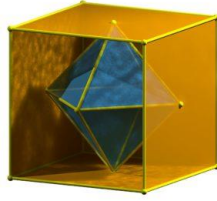

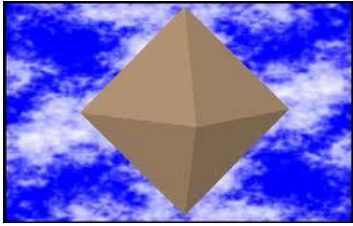

The following forms play a role:

- **The Tetrahedron and the Star Tetrahedron placed here in the cube of Metatron.**

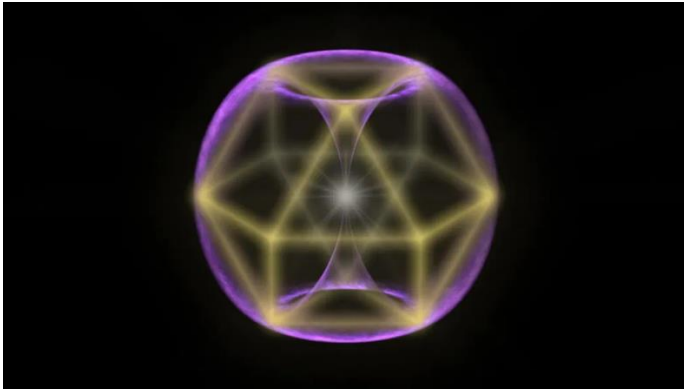

(Wivine : The geometry of the temple of Placencia was also designed on this basis starting from the circle. The design-plan was in two dimensions, the building was done in three dimensions and it is currently operating in multidimensions.)

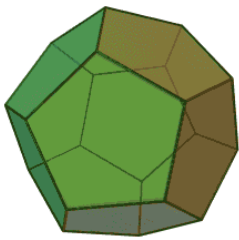

- **The Octahedron and the octahedron in the cube.**

- **The Cuboctahedron**

- **The Dodecahedron.**

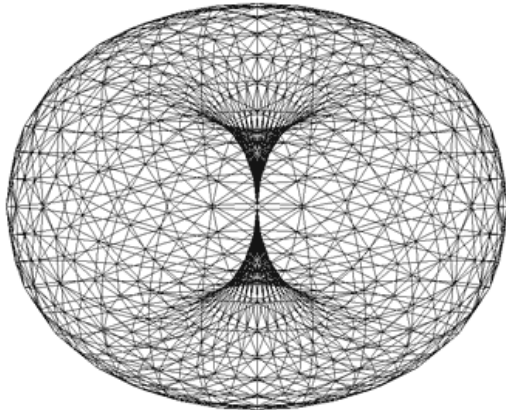

.-

- **The Cube of Metatron**

Twelve around 1.

- The TORUS

Already 8 people from this international group have been meeting every week for months to master these forms by experimenting and co-creating them during their meditations with the incarnated children of Paradise. They started with 2, then 3, then 4 and are now with 8. As the rest of the international group progresses and these individuals can free up time and discipline themselves, they will be systematically deployed to this group in order to arrive at 12 and finally at 24.

This way, they will actively participate in something that is for now beyond their comprehension. They will help us to open doors on pathways which will eventually create learning paths for their fellowmen to achieve more easily the state of "**Illuminated Man**".

Although the standard procedure says I only come when a world has one government led by a superhuman couple, one religion and one language, it will not happen this way.

Urantia is an exceptional planet with many possibilities where everything was experimental from the start. Nothing has ever been "standard" here and never will be.

It is an honor and a pleasure for us to introduce all your fascinating populations to higher spiritual knowledge and ethical values. You all, and I insist all of you, have tremendous potential. My team and I can't wait to get started. See you soon.

End.
