

The Consciousness or Mind of Christ Michael.

Session nr 3 of 21 June 2021 – English translation -original Dutch.

Place : Mezzaverde in Belgium.

Received by Wivine

Visitor :Malvantra **Melchizedek**.

Narrative from Wivine :

On May 15, 2021, the following happened during a group meditation at the Placencia Temple. All came there by bilocation. There was a lot of Light coming out of the temple when I got there. Something was going on. I sat in my seat and suddenly I saw pink lines connecting our hearts. Our hearts were clearly visible like in this drawing:

Then a bust of Jesus descended in the middle with his heart clearly visible as in the following picture: (*he was more handsome with a well-tanned face*)

His heart was much bigger than ours and he connected to our hearts with pink lines. Something poured out of his heart into our hearts.

Then the image changed and I saw the symbol of the cross of Christ extending from the center or the heart of the temple outwards. I had drawn this on the ground with black and white stones.

The word **Christ Consciousness** came to my mind.

I had known the term "Christ Consciousness" for a long time and had read different meanings of it. Which one was correct? I asked the question: what does *Christ consciousness* mean?

I did not get a clear oral answer. Pieces of sentences from different books came back to me, drawings, a whole puzzle that I had to put together. I will try to explain it in a few sentences, because these spiritual concepts are so difficult to express without limiting or distorting them.

Explanation: At first our souls are smaller than our bodies and as our soul grow it can get bigger even much bigger than our body. The spiritual radiance of a human soul can even cover a very large environment, ranging from a house to an entire village, and so on.

Christ Michael is a **Paradise Son**, created by two Deities of the Trinity: the **Universal Father** and the **Eternal Son (Mother)**.

Mother Spirit, is a **Paradise Daughter**, created by the **Infinite Spirit**.

Their Being, their Divine Soul, their spiritual consciousness, their spirit, their morality, therefore everything that makes them divine is as great as all of **Nebadon, our local universe**. Together they contain the full original Divine Wisdom, all Truths, the Cosmic Mind, and Spiritual attraction.

In fact we bathe in it but are not aware of it on Earth because we had been cut off from it. This has now changed. All souls who are currently growing thanks to their big hearts, can connect to it and evolve to much higher spiritual levels than before. Something that was in ancient days very difficult for humanity as a whole, with a few exceptions.

The **7 Mansion Worlds** are still a necessary intermediate stage. It is only when we have passed through them (during our lifetime or after physical death) that we can fully receive the **Consciousness or Holy Spirit of Christ Michael and Mother Spirit**. They work together, you see. Although Their Divine Being is different, without their constant cooperation nothing would exist or persist in Nebadon.

It is through them that our souls are spiritually drawn upwards until we become **First stage Spiritual Creatures**, who are allowed to leave the local universe Nebadon to continue their journey to Paradise through the spiritual worlds of our Superuniverse.

This is how anyone who wants to meet The Father in Paradise as a **Perfected Spiritual Creature** will first be influenced by Christ Michael and Mother Spirit to get there.

End of the story.

I was already very happy with this explanation, but it still lacked clarity.

What then is the difference between “Christ Consciousness” and “Divine Consciousness” that we obtain by working closely with our God Fragment, to achieve the **fusion** of our soul with It? Something was out of place. Everything was getting blurry again. The confusion returned and I asked for help.

Malvantra here : I will help you out, my dear. It is a problem of terminology.

1. The Consciousness or Mind of Christ Michael:

What has been explained to you during this meditation is **how** the Mind or Consciousness of Christ Michael, as a Paradise Son and Ruler of Nebadon, penetrates the higher mind of a human: **through the heart**.

The soul of a person who seeks God in his/her prayers and meditations, who pursues spiritual wisdom and higher cosmic insight, will also express this in his/her daily life. These people will make themselves more helpful

towards their fellow men with the means at their disposal. Their trust in God will grow together with their love for God.

The more the soul of man grows during its earthly life, the more the schooling of the soul will progress on the [Seven Mansion Worlds](#) and later on the [Morontia Worlds](#). This training takes place during your deep meditations and night sleep in order to make contact with your [indwelling God Fragment](#) to gain higher spiritual insight.

The more the soul progresses during its physical life, the more it will constantly open itself to the beneficial influence of the **Divine Mind or Consciousness of Christ Michael**, which will penetrate more and more the higher human mind.

During his life as [Jesus of Nazareth](#), he helped everyone in many ways: by healing, solving life problems or by spiritual teachings. He did this before his human life, during his [human life as Joshua Ben Joseph](#), and he continues to do so today as [Christ Michael, Supreme Master Sovereign of the local universe of Neadon](#).

He helps every soul that rises in His Kingdom. He enters the "heart mind" of those who opened themselves to God or Him, to help the soul rise, transform and metamorphose. He refines and ennobles your character, clarifies your difficult experiences, harmonizes and balances your emotions.

In other words: He dusts you off, removes stains, smooths out wrinkles so that you can continue your path to Paradise with a new dress or a new costume.

This is what the symbol you saw during your meditation means. Namely that you are all under the direct influence and benevolence of the **"Consciousness or Mind of Christ Michael"**.

It is something that every person who loves God and serves his fellow men will experience. Even if he does not know the character "Jesus" due to his culture or religion.

2. The term **Christ Consciousness** :

Jesus showed through his human life the way to reach the highest spiritual status that a soul can reach in one earthly life. The status which leads to **the fusion of the soul with its God Fragment**, a status where this indwelling God Fragment decides with the soul to postpone their fusion.

You called this status the **God-Man** or the status of **pre-fusion**.

At the time of Jesus, this status was already known by *initiates* who called it the attainment of the "**Christos** Consciousness (Greek)" or "Christ (English) Consciousness".

When Jesus was baptized in the Jordan River by John, he already achieved this status. He reached this Divine Consciousness or Mind of his indwelling God Fragment as a human being.

He then became **Jesus - the Christos** or Jesus - the **God-Man** as you would say.

The word "**Christos**" in Greek or "**Christ**" in English **did not refer to Jesus**, nor to Christians. It indicated, long before Jesus time, the highest spiritual level a soul could reach in a lifetime. This status had long been known by '*ancient initiates*' from Asia - India to the countries of the Mediterranean.

Jesus opened this "path" for all who lead normal lives. No more need for hard and dangerous initiations - nor to live as a recluse - to be celibate - to follow diets - to be a priest, a monk or a nun - no need for rituals, dogmas or laws imposed by organized religions with strong hierarchies . No human is excluded or expelled by God or Jesus. No one is privileged, everything happens in the hearts of people.

Jesus opened for you a personal path, a personal religion that evolves through your personal experiences and inner connection with God. An inner religion that grows and changes according to your life experiences with your fellow men and your inner experiences with God. It doesn't matter what religion you grew up in, where you come from, how smart you are, how you look or what your sexual orientation is, only your love for God and being of service to your fellow men counts for the evolution of your soul.

This is what made the original teachings of Jesus so revolutionary.

(Note Wivine: the Greek word χριστός / Christos or Christ in English - meant the Anointed - possessing Divine power - the Messiah - it was a title, not a name)

Jesus could perform miracles because his Will was in harmony with the Will of the Father. He could go on living because he **did not fuse** with his God Fragment or **Thought Adjuster**.

*(Note Wivine: If a human soul fuses here on earth with its God Fragment - then the body is destroyed by the power that emanates from that fusion. Jesus did not fuse with his Thought Adjuster or God Fragment because he was already a **Paradise Son**. We must fuse with our God Fragment to one day become a Perfected Son or Daughter that can stand before The Father in Paradise.)*

You too will continue to live in the physical realm after reaching this status because your fusion will be delayed. You too will perform "miracles" because your wishes, your insights, will then be in harmony with the Will and Wisdom of God.

You will be able to say one day, just like Jesus:

"I am God" - "My Father and I are One."

Man is born with the ability, with the potential to attain Divine status, right here on Earth. But he will never be able to say "**I am God**" until he realizes that Divine status in his life.

Otherwise, it will just be empty words with no substance.

Goodbye my friends, see you soon. Continue as you do. To all of you reading this and are doing honestly their best, I tell you:

We will be by your side all the way to the top.

End.
