AYA – Master Spirit N°7 of Superunivers n° 7 Orvonton - The Voice of the Trinity.

KUWAYA –Master Spirit N°2 of Superunivers n°2 called Orvando– The Voice of The Eternal Son- Mother.

**Malvantra** :, hold on, we are going to start. This is **reflectivity**, it will be heavy. Hold on, it is going to come. Here we are.

*{Note Kathy 3 December 2013: I ask everybody who knows what the term “reflectivity” means in the Urantia Book to not jump to conclusions. The energy that came through that day was very heavy, different than before and Malvantra warned me so that I would not be surprised. Nothing changed in my way of receiving and transmitting.....in the way I speak or the vocabulary I use, which means that our messages are reliable for us but still not perfect because of my own limitations and vocabulary.}*

**FATHER MELCHIZEDEK:** I am **Father Melchizedek**. For the first time I speak to people of **Urantia**, of this Earth. I am the father of whom you call the **Melchizedeks** or the Maya Cosmic Masters. They used a system now that is called **reflectivity** so that the words I have to say are not transformed, nor changed.

This is for her (*Kathy*) much heavier to carry than the other system.

It is with great joy that I can do this for the first time: let hear my voice on **Urantia**. This is a planet that caused us great trouble due to the **rebellion of Lucifer**. Lots of my sons came to this planet to try to administrate it after the rebellion of Lucifer. We had to cut off from the (*communication-spiritual*) systems almost 40 planets that joined Lucifer in his rebellion against God, against Christ Michael, against the established rules of the administration of the Universe.

Yes, many things happened here, which should not have happened, which were not planned, but which happened. We could not do otherwise than to let them play out this rebellion until its end.

It took 200.000 years to make an end to that rebellion and another 2,000 years after **Christ Michael(Jesus)** came here. He who is the father that created you ....and Me.... in this **local universe** together with Nebadonia your Divine **Mother Spirit**.

**Lucifer, Satan, Caligastia** do not exist anymore. So now we can start rebuilding what has been done wrong during 200.000 years. We all are coming here to reclaim this planet, this planet that Lucifer chose and where he did the ugliest things, the most crimes against the universe and against humanity in a certain sense. It will take time to bring you all at the level which would be normally yours in normal circumstances.

Due to the fact that you were cut off from the **circuits of the universe**, great human beings came out of it. With such a strong Faith and Trust in **God**, in their **Universal Father** that nothing, absolutely nothing can destroy it. This is why your planet is so special, because such special human beings came out of it. This is why I am here now.

We tried out this new experiment of communication, based on a **reflectivity system**, which you all have to study once you have your Urantia books. It is **not** a pure **reflectivity system**, it is a step in between, but it works and the messages that are past are trustable.

Later, when these systems will be more secured, I will speak through other voices. But we follow the Will of the Father and the Father asked us to start here, with your small group.

Goodbye my children.

**AYA:** This is Aya here, **Master spirit n° 7** of your **Superunivers nr. 7 Orvonton**. Yes my children, this is all very new and thanks to your efforts we can do these little trials with this new communication system. It is still **not perfect**. We needed a little unknown group to try it out. We have until now not much significance for you because you don't know very well all the different Orders of Higher Beings that live in the universe. Thank you my children. Good bye.

**KUWAYA:** I am KUWAYA, Master Spirit n° 2, I am the Voice of The Eternal Son. I came to you to speak about my son, Christ Michael, one of my very special sons, who came on Earth (as Jesus) for his seventh bestowal and who sacrificed himself on the cross so that you would be freed of the Lucifer rebellion.

He did this out of love for you. His love for all his children which He and (Mother-Spirit) Nebadonia created in this little local universe is tremendous.

He did not sacrifice himself for the sacrifice. God, The Father, never asks for a sacrifice. He did it that way because he thought at that moment and he was just a human being like you, to die on the cross would be the best thing to do. This was his personal decision. He had, like you, to listen and to learn from the existent religions 2,000 years ago when he lived here. And there was a religion which he studied and who spoke about a God who would sacrifice himself to help humankind and so he thought that it would be the best thing to do. He decided that by himself and he did it, convinced as he was that this was the right thing to do.

So do not think my children that because he did sacrifice his life on the cross that God expects you to do the same. God does not ask that from you. The only thing God asks you is to follow His guidance, to love Him and to try to become like Him because that is your destiny, “becoming like God”, doing in everything you do His will and not yours.

I leave you now my children and love my son (Jesus), who is also your father, who helps you to grow and become strong enough so that one day he can bring you to the Path of The Father because that’s the reason why He and your Divine Mother Spirit created you. To help you evolve to reach one day The Father. Thank you my children for this nice moment that I could join you. Thank you.

**Malvantra** here: we will finish this first trial with this new system. Thank you all for being here. Good bye.

END.

AYA Master Spirit n°7 of Superunivers n°7 Orvonton

SIRAYA, Master Spirit n° 1 of Superunivers n° 1 Orillington.

MONSANLORAN MELCHIZEDEK

**Malvantra** here. We are going to start. It will not be with the "reflectivity system" in it today.

**AYA** :This is **AYA** here, your **Master Spirit n°7 of this Superunivers** in which you live and which is called ORVONTON. Yes, I am here to reveal something to you; things that are of interest to you.

A long time ago many things happened on this Earth. The **rebellion of Lucifer** forced us to take drastic measures to protect all **the Constellation of Norlatiadek**. I know that you are not yet aware of the Organization of your **local universe**, but by speaking to you like this, we hope that your curiosity is intrigued and that you will do the necessary research in the **Urantia book** to understand what we are talking about. **The Most High of the Norlatiadek Constellation, The Fathers of the Constellation**, took the decision to take everything in their own hands: the administration and jurisdiction of your planet and of some other planets, but we will only talk about **Urantia**. They received for this the help of the **Melchizedeks**. The Melchizedeks are an Order of teachers, administrators, almost kamikaze to handle such situations. Many things could have been lost on your planet.

And thus by having contacts with highly evolved human beings, we were able to achieve and still maintain some wisdom of the universe to help your world as good or as bad as possible. This particular region (Belize-Yucatan) was a region of predilection where we were able at different periods of time to have excellent contacts, where we were able to establish great beacons of Light which have illuminated this continent from the North to the South.

There were dynasties among the Maya's with great kings and high priests that were very capable and to whom we were able to communicate and transmit our knowledge.

Lamanai: *the little temple with the Stella n° 9 which was dedicated to a person who had a connection with a High Ruler of Earth Quarters between 650 A.D. and .....*

Lamanai: *(Highest sacred temple in front of which we did our little meditation, 3 Maya's and me, Kathy. It is here that Monsanloran tried to contact us for the first time...but I only understood "I am M....." ...I asked the Maya-boy but he only understood that the Higher Beings tried to tell us something of the past. He could not recall what. It is later that we received his name through another person.)*

We could talk about Atlantis, but as you know this continent has sunk due to their stupidities and a lack of Divine knowledge

These positions in this region (of Belize), these beacons of Light were already installed during the time of Atlantis. We knew that the misfortune was about to happen and we had made arrangements in those days to maintain some Light and Knowledge on this world in this region.

Much of this knowledge has been unfortunately destroyed by the Spanish invasion and others. Although this small region of Belize could still be spared from the greed and the diseases of the Spanish which raged in other areas. This means that in this area there is still knowledge and we were waiting for someone to reactivate these links we already had implanted.

There is work to do and you will have to start this reconnection. And we will ask you to give assistance to this great people to redevelop their important values and thus to find that knowledge back. You will form the link, you and the young Mayas. We will not bombard you in one session with all the knowledge that you will slowly store. We will prepare you little by little, step by step so that you can adapt to it.

The reason for which we ask you to remain silent and stay humble and patient, is that if this would be known too fast, too much curiosity and attention would be brought upon you all and that would prevent you from doing a good job, to serve in a healthy manner and in all simplicity.

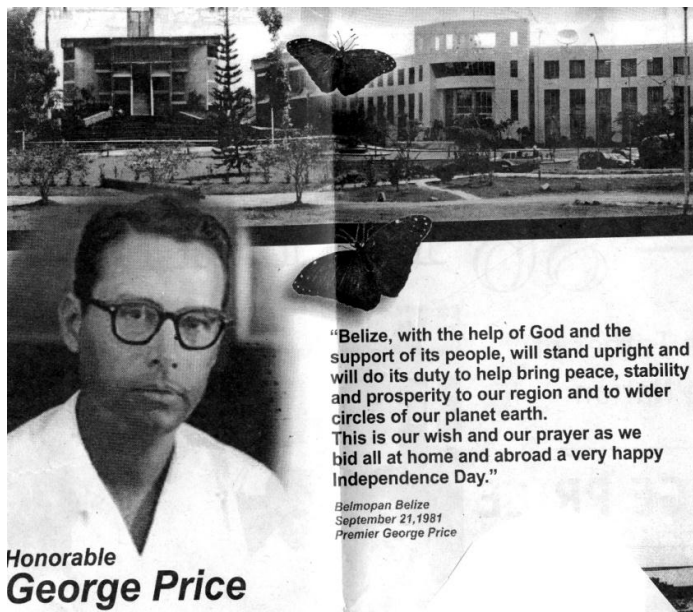

People who need to know and should know will be brought to you and we will communicate you what to tell them and what you don't have to tell them. Thank you and goodbye.

**MALVANTRA** : Monsanloran served for a long time in that region and we are talking about the region from Yucatan to Guatemala. He had among other things, a connection point with a human being for a period of time. This [Melchizedek](#) worked on Earth during a long time for [The Most High](#), a [Vorondadek](#). He worked there during more than 3,000 years. The inscriptions you saw on Stella (n°9 of Lamanai) dated of the last period, the last person with whom he had contact.

The Maya's never abandoned any of their temples. When these great leaders and priests, with high intellectual, psychological and mental capacities left or died then the remaining people that worked on the land just continued their lives or moved to other places.

You wonder why Belize in comparison to all these other countries in the vicinity is a country created in peace (*and not by civil wars*) by a person that was an extreme believer in God (*George Price, the father of the nation of*

*Belize, who died end 2011*). This is not a coincidence. Belize was maintained and protected because it has a function in times to come and it is the only enclave that we could keep in peace, due to our influence in the region.

(Speech of G. Price on the Day of the

proclamation of the Independence of Belize September 21, 1981: *“Belize, with the help of God and the support of its people, will stand upright and will do its duty to help bring peace, stability and prosperity to our region and to wider circles of our planet earth. This is our wish and our prayer as we bid all at home and abroad a very happy Independence Day.”* )

The fact that there were neither gold mines nor other minerals we could help this country, or this small piece of land on this great globe, to remain stable and protected.

You have all been brought to this place, to work together on a job that you will understand gradually. We will not explain everything because it will be too heavy to carry. You will grow in this and you will do what we will tell you and it will bring much good.

Because Belize is open to all countries of the world, people coming from everywhere will pass through your place. Some will come here in search of spirituality, wisdom, something they feel they need and that they have not yet found elsewhere. These people will take this to their countries where they came from and thus some essential things will be propelled and spread around the world from here. This will be done softly, without big flashlights, without great publicity, without major announcements. People who need to come to

seek knowledge here – WE WILL BRING THEM HERE -- you don't have to look for them. I hope this is very clear to you.

**MONSANLORAN** : Hello my children. I know that my name is still not well written or well expressed, but its ok, I accept it. It is with me that you will continue to work. I'm glad that I have finally again a group of people with whom I have direct contact so that I can continue my work and I assure you much work will be done together.

AYA and Malvantra already explained you in outline who I am and my function. Later when you will have more knowledge of all these functions and all these personalities or Higher Beings of the universe as you call them, I can explain more about me and what I do. I'll leave you my children and I thank you for having listened to me and that you are willing to work with me and my companions. This will be all.

**MALVANTRA** : it is not finished little one, wait a moment.

**SIRAYA**: I am SIRAYA, the Voice of the Universal Father. My kids your Father in Heaven is watching you with admiration for your courage and the simplicity with which you take all this. He is so happy to be able to speak directly to you, to speak in silence to you, to feel your love and your respect for Him and that you also get to feel His Love.

He knows that soon it is Easter and you'll have all many days of hard work ahead. So do not worry my children, do your everyday work, do what you need to do and we will return when it will be quieter and more conducive to you. Meanwhile you have lot of things still to discuss and study together. Then I wish you a good Easter and success in your business because you deserve it all. Goodbye my children.

**MALVANTRA**: we will end the session. I say goodbye to all of you and thank you for allowing us to speak to you and we all wish you a good Easter and we will hear us and see us afterwards. Good bye.

End.
